OUR MPP CAPABILITIES

Our MPP team leverages over 100 years of combined experience in the construction coatings industry to deliver reliable and expert solutions for federal clients. With a structured approach to managing multiple disciplines, we are equipped to handle complex projects efficiently. Our team holds Society for Protective Coatings (SSPC) certifications, ensuring project design is executed with the necessary skills, knowledge and equipment to perform preparations and coatings in the field. Our professional personnel and skilled labor force are committed to excellence, exemplified by our track record of critical thinking, challenge resolution, and outstanding business practices. This dedication guarantees that your project will be completed with the utmost reliability and proficiency. It is our goal to meet your desired design specifications and needs.
